

# some tips on making wine glass . . .

All stickers are made to fit in a 2inch high by 3 inch wide space. Please make sure these measurements work with your glasses. If not when you order you need to specify the size you want. All names are printed 1x3inches.

When you receive your order there will be clear plastic tape on the front of the bag. PLEASE don't throw this away. This is the tape you will use to apply your decals. You can use this tape over and over again. The older the tape the better. You may want to stick the tape a few times on your shirt or a rag to take some of the stickiness away. Trust me with some practice you will be a pro and learn how to work with the stickers!!

We have tons of saying and images. Please ask if you have something specific in mind. Remember the football teams are always the best sellers!!!

With the polka dots and single letters you can also make ornaments, key chains, tumblers, picture frames and many more acrylic pieces!

*Have fun!!*
